Digital4Business
making your digital future

The Digital4Business Mentoring Programme is inviting professionals to support Master's students as they build their confidence, clarify their career direction and expand their professional networks.

Mentors do not need previous mentoring experience. We are looking for people with strong interpersonal skills and experience in areas such as career guidance, innovation and entrepreneurship, leadership and networking.

The commitment is flexible, and all sessions take place online. Mentors will be supported through a mentoring masterclass, handbook and session templates.

Digital4Business Scholarships: Supporting Inclusive Access to Advanced Digital Skills

Digital4Business is offering **100 scholarships** to support students from underrepresented, disadvantaged, or vulnerable groups as they develop the advanced digital skills needed for today's labour market.

With Europe working towards its 2030 target of at least 20 million ICT specialists, access to digital education has never been more important. These scholarships are designed to help reduce barriers, widen participation, and support a more inclusive digital future.

Applications close on **4 September 2026**.
